FacilityForce: Comprehensive, End-to-End Solution

From Customer Request to the Completion of Work and Beyond...

Space Management

The OPERATE/AiM approach

Organizational Occupancy Data

Providing occupancy details that differ from the owner organization on the location

- Track the history who has occupied a space
- Can manage multi-occupancy %
- Track space usage
- Track occupant(s)
- Uses floor plans to view data for Space Analysis
- Space surveys

OPERATE/AiM CAD

The integration tool between the Drawing and Data

- Can drive room existence, room number, and square footage
- Use OPERATE/AiM data for reporting in AutoCAD
- Provides space planning in the drawing

Asset Management and floor plans
Leverage the location-based asset management, core to OPERATE/AiM

- Display asset location on the floor with the Space Viewer
- Pull dimensions, areas and other drawing data
- Toggle layers to view assets identified from the drawing

Operate Master Asset Profile
