

Perform Work

Mobility is Life

Perform Work provides real-time, secure access to Operate / AiM Work Management data for field users via an application optimized specifically for iOS devices. In the field maintenance and operations crew will have the most up-to-date and relevant information at their fingertips.

Problems Solved

- Field technicians spend less time in the field and increase their output efficiency.
- Outdated paper processes waste time, adversely affect productivity, and negatively impacts your bottom line.
- Your work force is spread out over a large, geographically-dispersed area. Achieve work management synergy through Perform's mobile apps.

A Unique Approach

Application deployment via either Apple's App Store or your Mobile Device Management Software.

Key Benefits

- Connecting directly into your Operate / AiM system improves real-time data sharing.
- Quick and easy access to daily assignments
- Real-time creation of time entries by activity and user via embedded stopwatch.
- Reduce paperwork and improve accuracy.
- Request and record material usage.
- Improve operational efficiencies and reduce rework.

Perform Work

How it Works

What You Get

- User interface designed and optimized specifically for iOS mobile devices that allows for quick, easy access to Work Orders.
- Mobile access to view and act on daily assignments and open phases of work orders.
- Request inventory, track time on phases and work orders.
- Secure access to Operate / AiM via Wi-Fi or your carrier network using system credentials or SSO.

PERFORM™

Perform is a family of mobile apps that empowers your field personnel and technicians to be more productive on-the-go, wherever they need to be.

INTEGRAL TO:

- Operations & Maintenance
- Field Service Operations
- Warehouse Management
- Inspections & Meter Readings
- Capital Projects

Perform Work

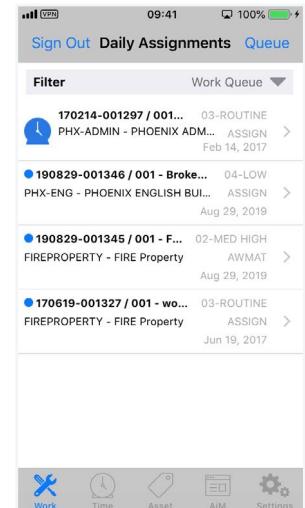

Login with Operate credentials or SSO

Access the information securely from any iOS device.

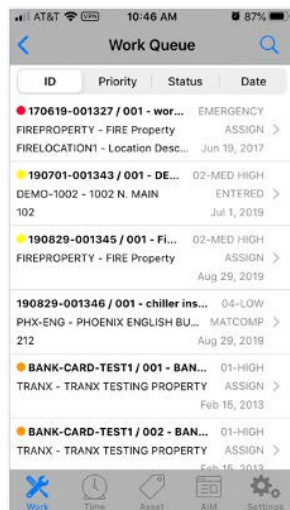

View and track daily assignments

Updates to daily assignments can be pushed to the field technicians any time of the day.

Quickly review phases in the queue

Techs can view, sort, and filter their work queue.

Who is FacilityForce?

Created specifically to address the facilities & asset management challenges that government and commercial organizations face today, FacilityForce was carved out of AssetWorks Facilities, a software developer with a rich history dating back to 1991 (30+ years ago).
